

Zoo-phonics® SCHOOL

Teaching the world to read

Suitable for
Kindergarten
Age 5-6

December Holiday Programmes

Our fun-filled holiday learning experiences help stimulate language development and expand creativity of young minds. Enrich your child's knowledge, vocabulary and language this holiday as we explore two themes that are fascinating to older children.

Amazing Discoveries and Inventions

A very educational workshop designed to enhance natural curiosity, accelerate thinking, creative and problem-solving skills. Let your child join us in our science classroom lab to meet the great inventors and discoverers of our time. Each day, we embark on a science adventure to learn about the inventions/discoveries in medicine, transportation, daily appliances, food and more. Through fun-filled experiments, interactive projects, stories, creative writing and games, we help ignite and excite the inner science curiosity in your child... inspiring him or her to make a difference!
