Kindergarten  
Age 5-6

## June Holiday Programmes

**Our fun-filled holiday learning experiences help stimulate language development and expand creativity of young minds. Enrich your child's knowledge, vocabulary and language this holiday as we explore themes that are fascinating to older children.**

### Pirates and Mermaids

"Yo Ho Ho there! Here I come" – Pirates and Mermaids is a fun-filled language approach programme which will take your child on a speech and drama learning experience. As your child embarks on an adventure to hunt for booties, sunken ships, treasure (skeletons too!), he or she will meet the enchanting mystical mermaids. Meet and greet our swashbuckling heroes in the open seas. This delightful programme, incorporating role-play, songs, stories and more, is a favourite of many.

### A Week with Sherlock Holmes

Meet the well-known Sherlock Holmes and enter his exciting world of mystery. Boys and girls simply love solving mysteries! No child is too young to appreciate the amazing deductive powers and reasoning of the world's smartest detective and his assistant – Dr Watson. For 5 days, your children will become detectives and pursue Sherlock's footsteps to decipher codes, investigate crime scenes and use mathematical /scientific reasoning to solve mysteries. Let Sherlock also equip our children with his useful tips for crime prevention. An exciting and enriching programme that teaches our young ones to be 'street-smart' and not easily fooled by commonplace tricksters.

### Brain Gym

The preschool period is a time for rapid growth along a number of developmental measures, not the least of which is children's thinking abilities, or cognition. We need to remember that with cognitive development, we are trying to grow and exercise thinking skills which include problem-solving, critical thinking, logical thinking, reasoning and even memory skills. Aiming to develop real cognitive growth, our Brain Gym programme seeks to provide an effective structure that helps children to make connections, analyse, synthesize and evaluate. Our carefully designed activities will stretch and grow your child's thinking skills. Come join us in this fun and unique programme!
