

# Zoo-phonics® SCHOOL

*Teaching the world to read*

## June Holiday Programmes

**Suitable for  
Kindergarten  
Age 5-6**

**Our fun-filled holiday learning experiences help stimulate language development and expand creativity of young minds. Enrich your child's knowledge, vocabulary and language this holiday as we explore three themes that are fascinating to older children.**

### **Classic Literature for the Young**

**June 3 - 7**

Reading opens a child's window to the world. Through reading stories, it has been known that a child picks up values, forms impressions and develops as a person. In this workshop, through dramatic story-telling, we introduce our young learners to a selection of timeless classics that have been well-adapted for the young such as Gulliver's Travels, Black Beauty, Doctor Dolittle and more. Using a combination of fun and multi-sensorial activities, we enable your child to explore the diverse themes and appreciate the many aspects of the characters in stories. Classic Literature is a fun-filled way to transform your child into a classic literature lover.

### **Land Before Time**

**June 10 - 14**

Land before Time is a fun-filled language approach programme which will take your child on a journey back in time to understand the 'Prehistoric Era'. For 5 days, our children will indulge in exciting Language Arts activities (integrating Science & Discovery) that will enhance their knowledge of the world before their time. Let your child explore and discover topics on dinosaurs, prehistoric men and the natural catastrophes that caused these creatures to be extinct from our modern world.

### **Brain Gym**

**June 17 - 21**

The preschool period is a time for rapid growth along a number of developmental measures, not the least of which is children's thinking abilities, or cognition. We need to remember that with cognitive development, we are trying to grow and exercise thinking skills which include problem-solving, critical thinking, logical thinking, reasoning and even memory skills. Aiming to develop real cognitive growth, our Brain Gym programme seeks to provide an effective structure that helps children to make connections, analyse, synthesize and evaluate. Our carefully designed activities will stretch and grow your child's thinking skills. Come join us in this fun and unique programme!

**Classic Literature for the Young**

**June 3 - 7 (4 sessions)**

**Land Before Time**

**June 10 - 14**
